● PROFESSIONAL SUMMARY

Middleware Consultant and MuleSoft Developer with experience in **API development, system integration and CI/CD**, currently working on a project for **Banco CTT**. Experienced across the **MuleSoft Anypoint Platform**, including API design, implementation and API management, with additional experience in **SQL Server, Azure DevOps and cloud technologies**. Certified **Salesforce MuleSoft Developer I** with a background in backend development and DevOps.

● SKILLS

Services

Mulesoft Certified Developer - Level 1 | Jenkins | Devops Azure | Terraform | Kubernetes | Docker | Ansible

BackEnd

.Net Core | Java

● WORK EXPERIENCE

16/11/2020 - 01/09/2022 - TOMAR, PORTUGAL

FULL STACK DEVELOPERSOFTINSA

I was involved in two projects, **Kiddyland** and **MobileAuditing**, delivering **backend development, cloud infrastructure and CI/CD solutions using Microsoft Azure and Azure DevOps**.

Kiddyland

A solution supporting check-in and check-out processes for children in IKEA spaces across different countries.

- Developed **backend solutions** and implemented **CI/CD pipelines using Azure DevOps** across multiple environments.
- Set up and configured **pre-production environments** in Azure.
- Worked with **Azure App Services, Storage Accounts, Logic Apps and Function Apps**.
- Implemented **SQL Databases** for application data management.
- Managed **TLS certificates** through Azure.
- Integrated **JIRA, BlackDuck and Polaris** into development and deployment processes.

MobileAuditing

A solution supporting audits carried out in IKEA stores across different countries.

- Developed **backend solutions** and implemented **CI/CD pipelines using Azure DevOps**.
- Configured **Azure pre-production environments** and supported application deployments.
- Worked with **Azure App Services and Storage Accounts**.
- Implemented **MongoDB** for storing application data related to stores, audits and documentation.
- Managed **TLS certificates** through Azure.

MIDDLEWARE CONSULTANTGLINTT GLOBAL

- Currently working as a **Middleware Consultant at Banco CTT**, focusing on **MuleSoft-based integration and API development**
- Proficient in the **end-to-end MuleSoft development lifecycle**, from **API design using RAML in Design Center**, to implementation in **Anypoint Studio** and management through **API Manager and Runtime Manager**
- Developing and maintaining **APIs and integrations** to support **business and banking processes**.
- Experienced in **SQL Server development**, including **Stored Procedures and Functions**.
- Implementing and maintaining **CI/CD pipelines using Azure DevOps**.
- Working within **Agile methodologies** and collaborating with **development and business teams** to deliver integration solutions.
